WARNING.....IMITATION BURNDY PRODUCTS IN THE PHILIPPINES

To Whom It May Concern:

It has come to our attention that imitation copper and aluminum connectors with the BURNDY name and markings on them, are being sold in the Philippines marketplace as genuine BURNDY PRODUCT. We understand that these imitation products are coming from Taiwan and perhaps even from within the Philippines.

This warning is for the protection of installers and end users. Undoubtedly these connectors would be of inferior quality and in time could lead to serious failures.

Please be on the lookout by requesting your suppliers source to certify that genuine BURNDY PRODUCTS are being supplied to you. For verification and assistance contact FCI's authorized representative:

Krimp & Wedge, Inc.
2/F Agcor building
335 Katipunan Ave., Loyola Heights
Quezon City 1108
Philippines
Attention: Ferdie Aberin
Tel: 929-6240
Fax: 929-6241

Thank you for your help.
